The Dust Brush (拂尘 *Fochen*) is a unique martial art weapon with Buddhist and Taoist origins. Traditionally used to keep insects away, the dust brush developed into a ceremonial object and Wushu weapon. Made from mane, animal hair or hemp tied together and attached to a long handle, the dust brush movements are soft and fluid.

WORKSHOP with **Master Tang Lai Wei** will guide you through the Dust Brush Form, incorporating the skills and techniques that are the uniquely characteristic of the Dust Brush.
